

## SAHRA Information – Mar 9 2019

### Remember to Lock your Car Doors

Another incident – a member within SAHRA's boundaries reported on the morning of March 4<sup>th</sup> that their car had been entered and the glove compartment was found open. The resident noticed fresh foot tracks up the driveway in the snow that fell the previous evening. Snow had been brushed off the car's handle and window on the driver's side. Please try to remember, even when rushed or unloading, to make sure that your car is locked.

Sounds like there are some good non-technical deterrents - steering wheel club, boot lock, parking in the garage.
