**Re: The Chimney Issue**

Honourable Representatives

The South Armour Heights Residents' Association has been dealing with 'The Chimney Issue' since 2011. A detailed write-up is attached, explaining the dilemma we are facing, actually nation-wide.

The City of Toronto has been waiting since 2007 and the residents' associations and individuals since 2012 for the submitted Change Requests to be considered for revision to the model National Building Code and the Ontario Building Code.

By this letter, we are asking for your assistance as our Federal and Provincial representatives.

Sincerely

Sheila K. Dunlop (Secretary)  
416-485-6718
