Neighbourhood Watch Program meeting

One of the **most effective ways of fighting Break & Enters and Auto Theft** is by getting to know your neighbours and watching out for each other.

Neighbourhood Watch Online is a simple system where neighbours connect/communicate electronically. Neighbours are able to spot suspicious behaviour because they know better what's going on in their immediate neighbourhood and what looks out of place.

Join us to find out how you can help create a safer neighbourhood through a Neighbourhood Watch program.
